The new revenue law requires the owners of the land who do not reside in the county in which it lies to file a written description of each tract by the County Clerk, and the failure to do so subjects the owner to a fine of not less than \$20 and not more than \$100 for each tract, and \$1 for each \$100 of the value of the land.

Mr. Herbert Brewer, a commercial tourist, of Louisville, representing that live firm, Hesse, Mayer & Co., called on us Monday. He showed us an apple which was a sample of the second growth on the same trees this year, on the premises of his father, S. H. Brewer, Skilesville, Ky. The trees are of an early variety and had a fair crop of the second growth, which are smaller than the early crop and of a different shape. A second growth is very uncommon.

EDITOR HERALD:—I was present at Elmwood school house last Saturday night, and had the pleasure of listening to a rousing speech on the Tariff issue by that eloquent young Kentuckian, Thos. L. Baird. He handled the subject well, and in him, I could readily see in the coming future another Jim Beck or Dan Voorhees. His speech was supplemented by a few logical points from Mr. H. B. Kinsolving, who accompanied him.

Yours,
HANDY ANDY.

Thanksgiving.

At all times abundant cause for giving thanks, there are this year special reasons for praise and thankfulness. General good health, abundant crops, unmistakable indications of a revival of business, and a Democratic Administration at Washington, which is conducting the people's business with a due regard to honesty and economy.

How to Get a Cheap Ladies' Wrap.

S. W. Anderson, proprietor of Anderson's Bazaar, closed a contract last week for the samples and remnants of Shillito's Coat Manufacture. These goods will arrive on the 22d of this month, and will afford an opportunity such as you don't often meet to buy a cheap garment, as they will be sold at prices below that which merchants buy them at wholesale. The discount at which these goods were bought was thirty per cent. below the manufacturer's price, and this discount will be given to the Bazaar customers, so that a cloak worth eight dollars will be sold for five dollars and sixty cents; one worth fifteen dollars will be sold at nine dollars and a half, and the entire lot, consisting of one or two hundred wraps, of all kinds and qualities will be sold in the same proportion. Many ladies have sent in their names with requests to be notified immediately when the garments arrive, hence this notice. They will be opened on Monday, the 22d of this month.

Round Trip Tickets.

Commencing November 4th, the N. & M. V. R. R. Co. will have on sale at Beaver Dam, round trip tickets, good until June 1st, 1887, to the following places, at rate named opposite:

Accidents - A Letter From San Saba - A Stirring Appeal for Help From Our Eloquent Correspondent, &c.

ROCKPORT, KY., Nov. 8, '86.

The vote polled here Tuesday was very small. Prohibition carried by 65, Montgomery by 10, and Roberts, for State Board of Equalization, by 4.

Mrs. J. E. Powell, of New Madrid, Mo., visited her sister, Mrs. Dr. Stowers, last week.

Mrs. Alice Henson and her son Hubert, after a few months visit at Kuttawa, have come home.

Mr. John Gilman cut his foot severely last week with an adze.

The Owens nursery delivered about \$350 worth of fruit trees here Saturday.

A horrible accident occurred in the Campbell neighborhood, below Rochester, in this county, on the 1st inst. Mr. Walker Adams was gathering corn, and a colored boy was driving the team from the crib to the field with Adams' 12 year old son in the wagon, when the team took fright, running away. The colored boy jumped out and escaped unhurt, but the other boy staid in the wagon till it struck a tree, which threw him out against something and killed him almost instantly.

Rev. Robert Bennett preached his first sermon here the 5th Sunday. He favorably impressed all his hearers.

Among the leading prohibitionists of this county who have helped to swell the creditable majority against whisky, Rev. J. T. Casler stands foremost. He has been untiring and remarkably zealous, and his lectures were as persuasive as they were unswerving, always bearing fruit wherever he appeared. He is one of those conscientious Christians who has the moral courage and stamina to practice what he preaches, and is like, eloquent whether in his exemplary walk of life or in the pulpit.

Mr. Robert Torrence, always true to the temperance cause, came home all the way from Louisville to vote.

Sunday night a week ago, as a west-bound special was coming through a bridge between Horton and Beaver Dam, Henry Fire, fireman from Central City, was standing on the steps of the cab looking back, when he was struck by the timbers, knocked off the car and almost killed. He will probably recover.

In a private letter, dated the 25th ult., to his father, Mr. Cash M. Wakland of Waxahachie, Texas, announces the sudden death of Mr. Tobe Wise, son of Nat G. Wise of that place. He was clerk in a store and was one day the morning before his death. To one so devoted to his family as Uncle Nat, this is a sad bereavement indeed, and all attempts of condolence can be little less than mockery to those stricken parents' hearts. And the letter further stated that Mr. Clay Taylor, who left here with two sisters in August on a visit to Texas, is lying at his brother-in-law, Ed Buich, very low with typhoid fever. The letter also stated that Mr. Wood Taylor, formerly of this county, but now of the blighted San Saba county, Texas, had come all the way to the Ellis county for a load of corn. The situation there is deplorable in the extreme and it is hoped there will be a generous response to the appeal of the committee on supplies from this place, which appears in this week's HERALD. Don't wait to be begged, or say you have nothing to spare. Give something, if it is only a bushel of potatoes, wheat or corn. We all feel better for having done good, besides it is more blessed to give than to receive. Thy goods will perish with thee, but good deeds will live on as the acoustical says the voice lives. Remember "the air is one vast library on whose pages are written all that man has ever spoken or whispered." Not a word that ever escapes the lips can die till the very air is no more.

The conscience-stricken plea of guilty Adam, the pious warning of Noah, the deep dignity of Jacob, the inspired commands of Moses, the thunder of Sinai, the contemptuous guffaws of Democritus, the sacrificial revelry of Nero, the burning orations of Cicero, the prayers of the devout, the appeals of the poor, the anguish of despair, with all that the human throat ever articulated, is still reverberating, and will echo on, forever repeating the words once spoken. And the sweet blessings of the reoccur, weeping from the depths of an overflowing heart, through tears of gratitude, will float out like angels' prayers, to preserve the name and deed of the giver, in these acoustic archives long after all the catacombs and pyramids of earth are burned in the sun. "There are more things in heaven and earth than we have ever dreamed of in our philosophy." Thoughts, words, and deeds are immortal. Every word we breathe leaps into the air to forever re-echo our praise or condemnation as that word is good or bad. To sympathize and to give, weaves into our lives more of the white. Then shall a blessing upon Ohio county from the deserving and never trill out from Texas and "spin forever down the rugg-log grooves of time?" SCGS.

preached here Sunday night to a large and appreciative audience.

Mrs. Maria Sandefur, wife of Charles Sandefur, died of pneumonia last Wednesday, and was buried at the Williams burying ground on Thursday. She leaves a husband and two children to mourn her loss. The deceased was a daughter of J. J. Leach, well-known in the county.

The cup of death we all must taste. Though Christ did pray that it might pass, His fervent prayers seemed but a waste, As on the cross he died at last, But rose again as we shall rise, And in life newness walked again, And soon ascended to the sky, Where we're comes sorrow, death nor pain.

The corpse is ready, told the bell. The grave is in, the potters field King alcohol in death has fell, His scepter never more to wield.

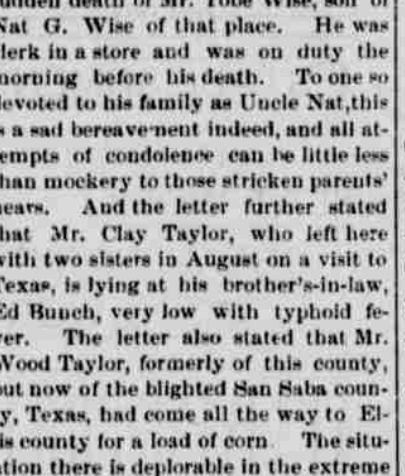

This district went about five to one for prohibition. King alcohol gave up the ghost quietly, but is none the less exceedingly dead in this district as also in the county.

The water is very low in Green river, so low that the boat is only able to make one trip a week, which greatly discommodates those who are dependent on river navigation for goods and transportation of all kinds.

The meeting at Green river church closed last Thursday night with seventeen additions.

Mr. H. C. Mitchell, of Louisville, traveling in the interest of the Enterprise Tobacco Warehouse, spent two or three days with us last week. He is a genial, wholesome gentleman, and represents a good firm.

BEAVER DAM DEPARTMENT.

BEAVER DAM, Nov. 8th 1886.—Our election passed off very quietly at this place on Tuesday last, with nothing to create a sensation of any kind. Mr. Montgomery received a majority of 40 at this place, which is about an average Democratic majority. Prohibition carried by an overwhelming majority.

Our Democratic brethren seem to have been a little shaken up, in some of the districts, and from this, they should learn a lesson. There is such a thing as honesty and civility in politics, and it is any one else, and when party leaders and political journalists descend too low in the slums of personality and demagoguery they may expect the masses of the thinking voters to become disgusted. This was certainly the case in the Louisville district, where a good man only received a few dozen majority, when his legitimate majority should have been several thousand.

The Courier Journal is a great newspaper, and ordinarily has been a great leader in politics, but under its present management, it has become disgusting and ridiculous in its efforts to dictate to the own party, who they should trust and honor. If we understand the object of organization upon the part of political parties, it is to promote certain public policies, and not to aggrandise the private ambition of any one man, or party leaders to array the members of a political organization in blind frenzy against each other, it is calculated to weaken that party, and prove suicidal to the same. The power of the press is grand beyond computation, for good, when conducted with prudence and sense and reason. But when it presumes too much upon the ignorance and base passions of the masses, it loses its influence and power, and the profession of journalism is degraded. We say this because we believe that the manner in which the Courier-Journal conducted the recent primary canvass, was the sole cause of Mr. Caruth's reduced majority, and because we have wanted a chance to express our utter disapprobation to such a style of journalism. We have an abiding faith in the fundamental principles of the Democratic party, and in their ultimate success and we regard the slight reverses of Tuesday last, not as an evidence of the people's distrust in Democracy, but as an outgrowth of the utterances engendered in some districts, and of sly and security in others. But I have wandered off in a moralizing mood, which I hope your readers will pardon.

Considerable sickness in our town and community at present. Chieftie, the daughter of Mr. Ben F. Gray, is seriously sick of typhoid fever. Dr. G. F. Mitchell attending physician, has called in consultation, Dr. J. E. Pennington. Three children of Mr. W. A. Gordon, near Sutton are sick of fevers, also a daughter of W. B. Chinn, of same disease.

Rev. J. E. Campbell, preached at this place Sunday evening. His sermon was highly appreciated.

Rev. Dr. Ford, of Owensboro, will preach here Thursday night next.

Mr. Ulysses Taylor, of Sulphur Springs, entered the school at this place this morning. We think we can boast of as pretty and well arranged school house as there is in the county. RURAL.

If we understand the object of organization upon the part of political parties, it is to promote certain public policies, and not to aggrandise the private ambition of any one man, or party leaders to array the members of a political organization in blind frenzy against each other, it is calculated to weaken that party, and prove suicidal to the same. The power of the press is grand beyond computation, for good, when conducted with prudence and sense and reason. But when it presumes too much upon the ignorance and base passions of the masses, it loses its influence and power, and the profession of journalism is degraded. We say this because we believe that the manner in which the Courier-Journal conducted the recent primary canvass, was the sole cause of Mr. Caruth's reduced majority, and because we have wanted a chance to express our utter disapprobation to such a style of journalism. We have an abiding faith in the fundamental principles of the Democratic party, and in their ultimate success and we regard the slight reverses of Tuesday last, not as an evidence of the people's distrust in Democracy, but as an outgrowth of the utterances engendered in some districts, and of sly and security in others. But I have wandered off in a moralizing mood, which I hope your readers will pardon.

Considerable sickness in our town and community at present. Chieftie, the daughter of Mr. Ben F. Gray, is seriously sick of typhoid fever. Dr. G. F. Mitchell attending physician, has called in consultation, Dr. J. E. Pennington. Three children of Mr. W. A. Gordon, near Sutton are sick of fevers, also a daughter of W. B. Chinn, of same disease.

Rev. J. E. Campbell, preached at this place Sunday evening. His sermon was highly appreciated.

Rev. Dr. Ford, of Owensboro, will preach here Thursday night next.

Mr. Ulysses Taylor, of Sulphur Springs, entered the school at this place this morning. We think we can boast of as pretty and well arranged school house as there is in the county. RURAL.

BEAVER DAM DEPARTMENT.

BEAVER DAM, Nov. 8th 1886.—Our election passed off very quietly at this place on Tuesday last, with nothing to create a sensation of any kind. Mr. Montgomery received a majority of 40 at this place, which is about an average Democratic majority. Prohibition carried by an overwhelming majority.

Our Democratic brethren seem to have been a little shaken up, in some of the districts, and from this, they should learn a lesson. There is such a thing as honesty and civility in politics, and it is any one else, and when party leaders and political journalists descend too low in the slums of personality and demagoguery they may expect the masses of the thinking voters to become disgusted. This was certainly the case in the Louisville district, where a good man only received a few dozen majority, when his legitimate majority should have been several thousand.

The Courier Journal is a great newspaper, and ordinarily has been a great leader in politics, but under its present management, it has become disgusting and ridiculous in its efforts to dictate to the own party, who they should trust and honor. If we understand the object of organization upon the part of political parties, it is to promote certain public policies, and not to aggrandise the private ambition of any one man, or party leaders to array the members of a political organization in blind frenzy against each other, it is calculated to weaken that party, and prove suicidal to the same.
